

# NEW W.R.A.P. PROTECTIONS

## WIDE RANGE ADAPTIVE PROTECTIONS

Discover the redesigned range of **W.R.A.P.** protections. State-of-the-art protections, designed using materials and production techniques that fully satisfy the needs of athletes, such as: the use of the new **Sensitive®** fabric that guarantees freshness and breathability, **Sas Tec®** and **ImpactTec®** way more comfortable protective inserts, silicone details and customized piping for optimal comfort. The W.R.A.P. range of protectors include: bodyguards, knee pads, elbow pads, back protectors, and padded shorts. Discover it on [www.ufoplast.com](http://www.ufoplast.com)

Each W.R.A.P. protection is recognizable by the symbol:

The new range of W.R.A.P. is enriched with an important advantage, from today, in addition to the **replaceable internal protective inserts**, the **interchangeable fabrics** of the various protections are added. This new option makes our products easy to restore in the event of damage, and allows the customer to choose different combinations of fabric and internal protections, to optimize the purchase of the various components and consequently optimize costs as well as having a lower environmental impact. By choosing Ufo Plast, our customers can count on high quality products that last over time, without having to give up on sustainability.

Protections with replaceable spare parts are recognizable by the symbol:

## SENSITIVE® FABRIC

Sensitive® Fabrics are designed and created to offer exceptional characteristics such as: breathability, comfort, quick drying, UV protection, durability and are chosen by the main brands in the sports, clothing, underwear and swimwear sector. Fabrics completely Made in Italy respecting the environment.

### SENSITIVE® SCULPT FORATO FABRIC

The exceptional bioclimatic comfort of the SENSITIVE® SCULPT FORATO fabric allows the athlete to wear a garment equipped with chest and back protectors that does not hinder movement in any way and remains cool and dry and stable in position throughout the entire period of sports practice.

SENSITIVE® RIB LIGHT FABRIC  
The exceptional bioclimatic comfort of the SENSITIVE® RIB LIGHT fabric allows the athlete to wear a garment equipped with chest and back protectors that does not hinder movement in any way and remains cool and dry and stable in position throughout the entire period of sports practice.

**EXTRA COMFORT**  
Offers great wearability and perfect shape

**SENSITIVECOSYSTEM®**  
Certifies our commitment to Eco sustainability and the environment

**QUICK DRYING**  
Dries twice as fast as conventional sportswear

**BODY MOISTURE SYSTEM**  
Provides perfect breathability and greater freshness

**SUN-BLOCK**  
Ensure high UV protection

## PERSONAL PROTECTIVE EQUIPMENTS INSIDE W.R.A.P. PROTECTIONS

### OUR MISSION IS YOUR SAFETY

ImpactTec premium protectors are the result of many years of research and development, exploring various types of material to perfect our protector production and safety rating. We believe in protecting the environment, ensuring your safety, managing our productivity, and of course, in continuous research to improve the quality of our products.

Our protectors are made from a special Polyurethane mix to ensure the optimum balance between comfort, weight and strength.

### Eco-Friendly

Our aim is to produce protectors without damage to the environment

- 1 - Waste Management System:** reduce, reuse and recycling to reduce environmental impact.
- 2 - Low Energy Consumption:** reduction of the environmental impact
- 3 - Automatic Spraying Machine:** for energy saving and waste reduction.
- 4 - Reusable Head Cleaners:** Special cleaners which to safe our atmosphere and our workers health.
- 5 - Improved Formula:**  
New formula is lighter than ever!
- 6 - Zero Detox Report:** Short Chained Chlorinated Paraffins (C10-C13): Not Detected <1000 ppm
- 7 - General Operators and Users Healthcare:**  
Operating standards are higher than the legal requirements

### PEOPLE TRUST IN OUR HIGH QUALITY PROTECTORS

SAS-TEC is an innovative producer of protectors with many years of experience in this sector. Our leading engineers have more than 25 years of practical experience they gained a very good insight in all kind of protection systems that are available on the market. Based on this experience many protectors have been developed in detailed work since the company foundation in 2004, and we keep introducing new products to the market on a regular base. Not only in the motorbike sector, but also in the medical and sports sector people trust in our high quality SAS-TEC protectors

Our high-quality soft foam protectors offer excellent safety functions not only when riding a motorcycle, mountain bike or when skiing. 3D-Protector from visco elastic soft foam with excellent shock absorption values. Anatomically perfectly adapted and barely noticeable. High-end engineering for greater safety.

**Special foam of SAS-TEC:** The special characteristics of our unique SAS-TEC foam

- 1-Viscoelastic foam with memory effect**
- 2-Multi impact compliant**
- 3-Excellent residual forces**
- 4-Lightweight**
- 5-Adaptive absorption**
- 6-In impulse responding behaviour**
- 7-Environmental compatibility**
- 8-Long product life**
- 9-Temperature stability**
- 10-Comfort**
- 11-Washable (hand wash)**
